Objective

I made it my mission in life to make almost everything about it technology-related. Technology is fast-growing and I find it fascinating the things we can do with it. I am a fast learner and always eager to learn new things that will help me achieve my goals. I am very sociable and professional when needed to. I have completed my degree in Computer Science and I see this as the first step to one day being an influence in the tech world.

Experience

1st Jan 2023 - Present

Joburg Center for Software Engineering(JCSE)
Software Developer Intern
Is being trained to be a full-stack developer and learn the industry secrets and tools used to do the job effectively and efficiently.

Education
